

The Biden Buggy-Upcoming Reality is not a Joke

The Biden Buggy is one example of life under the New World Order ("tyrannical nightmare") as dictated by the World Economic Forum (**The Great Reset**), the United Nations (**Agenda 2030**), and the Biden administration (**Green New Deal**).

The Biden Buggy will become the preferred mode of transportation for people unable to afford an electric vehicle ("EV"). It will also serve as the backup for EVs when power is unavailable to charge their batteries; that is, when the sun isn't shining, and the wind isn't blowing.

Nevertheless, the Biden Buggy may become a luxury vehicle with the culling of herds of large animals, now being proposed for cattle herds.

Most of the EVs today are powered by electricity generated from fossil fuels. They are really carbon-powered electric vehicles.

*"We are being lied to that CO2 is a "pollutant" when it is the basis for all life. The fate of civilization depends on our defeating this lie." - **Dr. Patrick Moore***

DR. RICHARD LINDZEN

"What historians will definitely wonder about in future centuries is how deeply flawed logic, obscured by shrewd and unrelenting propaganda, actually enabled a coalition of powerful special interests to convince nearly everyone in the world that CO2 from human industry was a dangerous, planet-destroying toxin. It will be remembered as the greatest mass delusion in the history of the world - that CO2, the life of plants, was considered for a time to be a deadly poison."
